

HDPE PIPE FUSION

Roberts Irrigation offers High-Density Polyethylene (HDPE) pipe fusion services including experienced design, installation, and repair - big or small. HDPE pipe is known for its strength and durability, commonly seen replacing aging steel. It is a suitable choice for systems exposed to high pressures, fluctuating temperatures, heavy traffic areas (driveways), etc.

WIDE SIZE RANGE

3/4" - 24" pipe

**Several SDR options*

KNOWLEDGE-BASED DESIGN

Mainline, Laterals, Manifolds, Side Saddles, etc.

SKILLED INSTALLATION

From a quick repair fuse to an expansive project, we can help!
